2 FOLD CORNER TO CENTER LINE

2 FOLD CORNER TO CENTER LINE

HOW TO FOLD IT

1. Fold the paper in half the long way. Crease it, then open it back up.
2. Fold both top corners in to the center line.
3. Fold the whole top down on line 3, like an envelope flap.
4. Fold the new top corners in to the center line. A small point sticks out below them.
5. Fold that small point up over the corners to lock them.
6. Fold the plane in half away from you, so the lock is on the outside.
7. Fold each wing down on the short lines at the tail, so its edge meets the bottom of the body.
8. Give it a gentle, level throw. This one glides.

3 FOLD THE TOP DOWN ON THIS LINE
